**Community Priority Needs**  
**2015-2019 Consolidated Plan (REPLACE WITH 2020-2024 GOALS & STRATEGIES)**

**STRATEGIC PLAN**

The five-year strategic plan sets the framework for projects and activities in Pasco over the next five years.

1. *The need for affordable housing creation, preservation, access and choice.*
2. *The need for community, neighborhood and economic development.*

**GOALS**

**Goal 1: Improve Affordable Housing Opportunities for Lower-Income Individuals and Households**

**Goal 2: Improve Community Infrastructure, Public Facilities and Local Economies**

- Strategy 1. Support businesses that create permanent jobs for lower-income residents.

- Strategy 4. Support existing homeless facilities and increase housing resources that assist homeless persons toward housing stability and self-sufficiency.

**OBJECTIVES – OUTCOMES – INDICATORS**

HUD requires recipients of federal funding to assess the outcomes of the program in question, in order to better assess the effectiveness of the activity. A Performance Measurement System has been designed to establish and track measurable objectives and outcomes for the CDBG program. There are three key elements to the Performance Measurement System – Objectives, Outcomes and Indicators. All approved applicants will be required to comply with the Performance Measurement System.

Determine which one of the three objectives best describes the purpose of the activity/project:

- Objective 1. Suitable Living Environment – This objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environments.
- Objective 2. Decent Housing – This activity typically is designed to cover the wide range of housing possible under CDBG. This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under Suitable Living Environment.
- Objective 3. Create Economic Opportunity – This objective applies to the types of activities related to economic development, commercial revitalization or job creation.

Determine which Outcome best describes your proposed activity/project:

- Outcome 1. Improve availability/accessibility – This category applies to activities that make services, infrastructure, public facilities, housing, or shelters available or accessible to low/moderate income people, including persons with disabilities. In this category, accessibility does not refer only to physical barriers, but also to making the affordable basics of daily living available and accessible to low/moderate income people where they live.
- Outcome 2. Improve affordability – This category applies to activities that provide affordability in a variety of ways in the lives of low/moderate income people. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as transportation or day care.
- Outcome 3. Improve sustainability – This category applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low/moderate income or by removing or eliminating slums or blighted areas through multiple activities or services that sustain communities or neighborhoods.

These are the key Indicators that HUD will use to assist in demonstrating benefits that result from the expenditure of CDBG funds. **These are for your information only – you do not have to choose an Indicator.**
